

THE TRUTH ABOUT TRAVEL ADVENTURES FOR EVERY BUDGET & ABILITY

Travel after retirement isn't all postcards and bucket lists—and it isn't over either.

This candid seminar explores the truths people rarely hear about travel later in life, including the realities of travel insurance, travel agents, senior living communities, and what “accessible” travel actually means. We will also discuss how travel does not have to be expensive, and how local and regional travel can offer regular opportunities for social interaction.

You'll hear perspectives from professionals and organizations involved in travel for older adults and gain clearer insight into what's realistic, what requires planning, and what to think through before you go.
